Mobile: +91-8699680020

SKILLS

Languages: Python, Java, SQL, JavaScript
Frameworks: HTML and CSS, Bootstrap, Flask, Tkinter, Django
Databases: MySQL, MongoDB, MongoDB Atlas
Tools/Platforms: GitHub, Render, AWS, Railway, Cloud flare Tunnel, Jupyter, Node-RED
Soft Skills: Communication, Critical Thinking, Time Management, Team-player, Analytical Thinking

INTERNSHIP

Futureense Technologies — Data Analyst Intern	Jun' 25 – Aug' 25
- Worked on real-time data analysis, backend integrations, and internal automation tasks. - Contributed to data-driven solutions and collaborated with development teams on improving existing system efficiency. - Performed Python-based analytics and SQL data extraction to identify trends in student progress, completion metrics, and curriculum efficiency. - Built dashboards and automated reports to support strategic decision-making for program. - Gained hands-on experience with version control, data pipelines, and documentation.	
University of Zimbabwe — Freelance Data Analyst	Apr' 24 – Jun' 24
- Analyzed over 12 months of electricity consumption data to identify usage anomalies and cost drivers. - Improved billing insights accuracy by 18% through Python- and SQL-based trend analysis. - Created visual dashboards using Pandas and Matplotlib, reducing researcher analysis time by 40%. - Delivered clean, structured datasets that enhanced academic modelling accuracy by 15%.	

PROJECTS

AI-Disease Prediction System AI-Disease-Prediction	Jun' 25 – Jul' 25
- Built a machine learning model for predicting diabetes using patient health parameter - Implemented data preprocessing, model training, and accuracy evaluation. - Deployed the model using Flask and hosted on Railway. Tech: Python, Scikit-Learn, Pandas, Flask, Railway	
Smart Energy Monitoring Dashboard Smart Energy Dashboard	Mar' 25 – Apr' 25
- Developed a real-time IoT dashboard to analyze energy consumption using Node-RED. - Implemented predictive analytics, anomaly alerts, and live sensor streaming. - Integrated MongoDB Atlas for cloud access and added natural language query features. Tech: Dash (Plotly), Flask, Node-RED, MQTT Nodes, MongoDB Atlas, Scikit-Learn, Render	

CERTIFICATES

OCI Certified Generative AI Professional Oracle	31 Oct' 25
DP-900: Microsoft Azure Data Fundamentals Microsoft	24 Nov' 24
Cancer Image Detection with PyTorch IBM	24 Sept' 24
AWS Generative AI Certification AWS	20 Sept' 24
Hardware & Operating Systems IBM	13 Sept' 24
Effective Leadership HP Life	10 May' 24

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science (AI & Data) Engineering	Punjab, India Aug' 23 – Present
Saint Columba's High School Intermediate; Percentage: 95%	Bulawayo, Zimbabwe Apr' 20 – Nov' 22
Mandwandwe High School Matriculation; Percentage: 90%	Bulawayo, Zimbabwe Apr' 17 – Mar' 20
